

A LETTER FROM A PAST CLIENT

To my friends at Squires Plastic Surgery,

I am writing to thank each member of your exceptional staff for an experience that has changed my life. In October of 2001 I was crowned Miss Colorado 2002. I knew I would want to look and feel my best as the state representative and as I vied for the national title 2002. I began working intensively with a personal trainer. My body immediately responded and showed results however; one part of my body remained the same. Regardless of how hard I trained and how much weight I would lift, it was not within my power to change the part of my body I was most self-conscious of. It is because of Dr. Squires that I no longer have a reason to be self-conscious.

Each member of your staff took me under their wing in many ways. Linda, thank you for being so warm and courteous while we scheduled appointments (not the easiest thing to do with my schedule). Paula, thank you for being patient, ready and more than willing to answer the numerous questions I had. Windy, thank you for your professionalism and assurance. Dr. Squires, thank you for your knowledge that walked me step by step through my surgery and for your contribution that has changed the way I see myself forever. Thank you for making me feel as though I was the only patient in the office every time a member of your staff saw me. I never once have felt as if a number in a chart only identified me, instead I am greeted by my first name every time I enter and exit the office.

My goals for plastic surgery have not only been met but also exceeded. It is the bedside mannerisms of your practice that have made the difference and a lasting impression on friends, my family and me. My needs and desires for the surgery vary greatly from that of other patients; this was not only respected but also encouraged. Thank you to the staff at Squires Plastic Surgery for your professional contribution that has changed my life and the woman I am forever.

Sincerely,

Keely C. Gaston
Miss Colorado 2002
